On Wednesday, May 5, 2021, the GLCD module development team held a special premiere of Module 1 for the Project Advisory Team. Dr. Theresa Murphrey, Miss Danette Philpot, and Mrs. Audra Richburg shared detailed steps of the development and production process which will now be used for completing the remaining 13 modules over the next six months.

Twelve attendees from several institutions participated in the 30-minute event which began with an overview and purpose of the 14-module curriculum followed by the development process – topic identification, content outlines, and instructor-facilitated and online modules ready for testing. Also, reviewed were authorship and recognition which will be included in modules.

The premiere ended with a brief demonstration of the materials and Q&A session. Based on feedback from the session, modules ready for testing will be made available on the “[Project Leaders File Access](#)” page so that team members can test in their own courses. All attendees were invited to share the upcoming Faculty Training seminar information, which will focus on how instructors can be notified about, download, and use the materials.

Note: We will hold a Faculty Training via Zoom on Wednesday, May 12 at 11:00 a.m. CST. Additionally, Dissemination Seminar III is scheduled for Wednesday, May 19 at 11:00 a.m. CST. Registration links for all future events are located at <http://genderlensed.tamu.edu/>.
